1.0 Introduction

1.1 The 2010/15 Corporate Plan was refreshed in 2014 and sets out a number of key actions and indicators to deliver and measure progress against key priorities. Throughout the year, performance against these key indicators and milestones is reported to Cabinet and Scrutiny committees on a quarterly basis and to Scrutiny monthly.

1.2 The information in these performance reports is collected and managed using the Covalent performance management system. Further detail behind the report and evidence providing a full and robust audit trail for the performance information presented is available to view within the online system. A dedicated Member portal has been designed to enable and encourage Members to access performance information at any time and two dedicated training sessions have been delivered. All Members are invited to contact the Corporate Development Team at any time to arrange individual training or support on using the system if required.

1.3 In the absence of a National Performance Framework it is important that the authority continues to strengthen its own performance management procedures particularly in relation to the use of robust local indicators and meaningful reporting against actions and activities. The actions, milestones and performance indicators in the Corporate Plan refresh 2014 have been chosen to reflect this year’s priority activities and objectives with a view to realising the longer term vision set out in the Corporate Plan.

1.4 Following changes to crime reporting procedures, it was decided to change...
the crime related PIs from targeted to data only as the previous targets are no longer relevant to the data being reported. These PIs will be reviewed and revised for the next iteration of the Corporate Plan.

2.0 Performance Overview

2.1 Appendix 1 is a detailed report on the activities and outturns of the performance indicators listed within the current Corporate Plan. This report shows the latest available outturns for the local performance indicators featured in the 2010/15 Corporate Plan broken down into themed areas.

2.2 Each project has been allocated a number of in-year actions and milestones to be completed in order to progress the project efficiently. Some projects may be fully completed within the year whereas larger scale priorities will be delivered over a longer period. The first section of Appendix 1 lists all the Corporate Plan priority actions whose in-year milestones have already been fully completed this year. Full details of the specific milestones and commentary for these actions is available on request or directly via the Covalent Performance Management System.

2.3 The second section of Appendix 1 lists the ongoing actions showing all milestones that were scheduled for completion within this period and any outstanding milestones along with commentary to explain the context behind them.

2.4 Chapter summary text has been supplied by the relevant Heads of Service to provide added context for the performance reported in each section. This commentary highlights important achievements and challenges for the reporting period and can be found at the start of each chapter.

2.5 The PI tables show which indicators related to the priority projects are performing on target (green tick icon), failing to reach target (red octagonal icon) or are near misses (amber triangle icon). Relative performance is based on quarterly targets as set by the managers of each area using past performance, available benchmarking and planned service developments.

2.6 The current outturn for each PI is shown on the performance gauges in column 4 – Year to date. The gauges show visually how the level of performance compares to targets (green zones) and near miss levels (amber zones). Amber zones have been reviewed to reflect appropriate levels of performance expectation and any national targets which are lower than our own local aspirations.

2.7 The bar charts in column 6 show comparative performance against previous quarters/years as appropriate. This enables an at a glance indication of whether performance is improving or not and will help identify potential trends and seasonality of performance.

2.8 Commentary has been included in the action and indicator outturn tables where supplied. This provides some contextual background to the performance and this function and is backed up by the online evidence collation facility of the Covalent system.
2.9 Of the 23 Key Performance Indicators reported in the Corporate Plan this quarter, **3 are currently showing as Red, 10 are showing as Green, 4 are showing as Amber and 6 are data only or contextual PIs.** The off target PIs are...

- CD_008 – Decent Homes Programme
- CD_051 – Difficult properties remedied/brought back into use
- CD_056 - Number of days for assistance with adaptations (Disabled Facilities Grants)

2.10 We have the capability within Covalent to analyse performance data via dashboard reporting. This allows us to look beyond green – amber – red performance reporting and drill down more into the data and what it is telling us. The following PIs are showing as the relatively best performing according to the latest confirmed data available:

<table>
<thead>
<tr>
<th>Code &amp; Title</th>
<th>Code &amp; Title</th>
