| Internet Controls  | Adequate        | • The list of those with access to systems shows staff known to have left the Council, duplicated entries and 984 entries of unknown names or other identification.  
                             • Issues around leavers from agencies or Towner not being notified to IT.  
                             • Use of personal drives is not made clear in the IT Acceptable Use Policy. | Follow up ongoing                            |
| Planning System    | Adequate        | • Possible Data Protection issues around data held on the website.  
                             • Issues with the current payment process which means applications may not be fully completed. Requires Civica upgrade. | Follow up ongoing (in draft appears all addressed) |
| Software Compliance| Adequate        | • No structured process for obtaining and retaining licence statements.  
                             • No evidence retained of audits carried out by external agencies.  
                             • No central register retained to log: software held, no. of licences, no. of users.  
                             • No of reviews of no. of users actually accessing the software. | Follow up ongoing                            |
| Contact Centre     | Adequate        | • Apparent time lags in loading scripts.  
                             • Some confusion over evacuation procedures.  
                             • Documents being photocopied and then scanned.  
                             • A need to remind staff of data security issues.  
                             • Lack of Business Continuity Planning. | Follow up ongoing                            |

| Procurement                         | Inadequate      | • 22 suppliers with large (£75k+) annual expenditure but no contract in place.  
• 43 suppliers with a medium (£25 to £74,999) annual expenditure but no contract in place.  
• Unclear if all payments to main IT supplier are within the scope of the contract. (This was later checked by the Senior Head of Projects, Performance and Technology and payments were found to be correct and within contracts).  
• No comprehensive and up to date contracts database is in place.                                                                                     | Follow up ongoing  |
| Business Continuity Planning        | Inadequate      | • Lack of departmental or service business recovery plans in place.                                                                                                                                              |                    |
| IT (Annual 2015/16)                 | Adequately      | • Testing of disaster recovery plans had not been undertaken.                                                                                                                                                   | N/A                |
| Theatres Reconciliation (Annual 2015/16) | Adequately | • Details of new shows are not always signed to show they have been checked before the information is put onto Databox.                                                                                     | N/A                |
